| I was trying to install my Plus! Digital Media Edition but
| half way through a window come up and says:
|
| Error 1317: An error occured while attempting to create
| the directory C:\Documents and Settings\All
| Users\Documents\My Music
|
| What I've tried doing is actually looking for the file
| that it says and founded and i think that it cant create
| a directory that already exists so i tried deleting the
| already existing My Music folder in\All
| Users\Documents but it doesnt let me because it says that
| access is denied... I will greatly appreciate any
| solutions to this problem. THankz
|
| Also, I'm the only account in my computer which makes me
| Computer Administrator so i dont know why its not letting
| me in... I guess what i'm asking is that i need help to
| solve that access thing so i can finally install Plus!
| MDE. Thanks in advance
