1. Click Start, and then click Run.
2. In the Open box, type: control userpasswords2 , and then click OK.
3. In the dialog box that appears, click the Advanced tab and remove the check next to "Require users to press Ctrl+Alt+Delete, click Apply.

| I'm having the exact same problem:

| The text next to the checkbox in the "Properties > Screen Saver"  
| tab has changed from ON RESUME, DISPLAY WELCOME SCREEN to ON RESUME,  
| PASSWORD PROTECT and instead of switching to the welcome screen after  
| the screen saver is deactivated, I get the conventional w2k login  
| prompt.

| "Use the Welcome Screen" and "Use Fast User Switching" are both  
| ENABLED.

| I want my welcome screen back.

| Thanks for any input ...
