Yes, you can download it and use it offline.

| NAV 02 came installed on my computer by Dell. Have just purchased NAV05
| upgrade to replace it. Instructions say I must uninstall 02 prior to the
new

| installation. A user in the Dell groups indicated that I will have to run
a

| removal tool in addition to Uninstall. Something like Rnav03 (supposed to
| work for 02) supposedly available from Symantec. If this is true, does
| anyone know if I can download the tool, save it and use it off line ? I
do

| not plan to be online while doing the un/install.

| Any advice will be much appreciated. Thanks.
