hello, thank you;
when I try to load the PCworld page to read up on security products, I keep getting error message as follows> A runtime error has occurred,do you wish to debug?
line 51error: object expected;
can anyone tell me which update will fix this?
thank you kind friends
Rich

Your Header AutoDown .EXE refer to an Auto Updater for your Anti-Virus or other application installed may corrupt or having Internet Connection issue. Please make sure your System is clean from malware and Viruses by performing these cleaning steps then proceed with the reset:

1... First, try to clean up your caches, Internet files and delete cookies by doing this:

Click Start >> Control Panel >> Double click Network and Internet Connections >> Double click Internet Options.

On the IE properties windows you will see these Tabs:

General | Security | Privacy | Content | Connections | Programs | Advanced

Under General Tab clear your History, Internet Files and Cookies.

Then click on Advanced tab and scroll down to under the Browsing Option:

[&] Browsing

[] Disable Debugging for (Internet Explorer) < Please Check this

[] Disable Debugging for Other. <= Please Check this Box

[] Enable Third-Party browser extensions (Req Rest) uncheck this box.

Then click on Programs Tab and click Manage Add-Ons and Disable all non Verified Add-Ons (You should Renable them later one-by-one and see the culprit and update it or remove it.

How to manage Add-Ons:

RE: runtime error

<http://support.microsoft.com/kb/883256>

Scan for malware from here:

Spybot Search & Destroy

<http://www.safer-networking.org/en/download/index.html>

SuperAntispyware – Free

<http://www.superantispyware.com/superantispywarefreevspro.html>

RootkitRevealer v1.71

By Bryce Cogswell and Mark Russinovich

<http://www.microsoft.com/technet/sysinternals/Security/RootkitRevealer.mspx>

Run a scan from here on-line:

<http://security.symantec.com/sscv6/default.asp?langid=ie&venid=sym>

<http://www3.ca.com/securityadvisor/virusinfo/scan.aspx>

Download Avast Cleaner (offline scanner) from here:

<http://www.avast.com/eng/avast-virus-cleaner.html>

Lots of tools to download and disinfect your machine (offline scanner):

<http://www.bitdefender.co.uk/site/Downloads/browseFreeRemovalTool/>

After the scan run disk cleanup on your drive.

Make sure your Java version is up2date and your Flash player from Adobe also up2date.

HTH.
