Hi,

I have a problem with my notebook: the group policy are corrupted! When I try to go in TCP/IP setting, or in pheriperals management i receive an message: "You don't have a permission".

My account is an administrators, and I have try administrator acctont too, but tge problem persist.

I have test ram memory, test antivirus and HD.

I have try create a new administrators user.

When I open sanp-in Group Policy I can explore only some folder, into another folder the notebook block.

I have try to reset GPO:

```
secedit /configure /cfg %windir%\repair\secsetup.inf /db secsetup.sdb  
/verbose
```

the notebook block and I am forced to reset.

What I can do?

Help

Excuse my English

Crisha
