Hash: SHA1

[sorry for the plug, send followups to private email please].

Ok for all of the cisco, sony, ncipher, uwaterloo, mit, etc... people who [semi-]routinely download my stuff.... [quick stat: there were 1090 unique visitors to libtomcrypt.org in the past two weeks]

More stats: 89 people downloaded LTM [v0.25] from my site, some of the downloaders:

dhcp-64-104-146-89.cisco.com

doufu-cacr.math.uwaterloo.ca

gate.ncipher.com

maxal.extern.ucsd.edu

wfp2.almaden.ibm.com

If for even a split second you like what you see can you please consider me for a job or position? I'm not asking for the world just a entry position somewhere.

I have a C.V. as well as a list of my non-official academic achievements on my personal web site [email me for the url].

Thanks and sorry for the plug.

Tom
