dates with Negroes.

That's an overt use. Worse than that:

They can insidiously enter your life: Qubilah Shabazz was seduced. Like Bill Murray elaborately seducing Andie MacDowell in 'Groundhog Day' they can enter your life in an almost unconscious manner. Informants manage to connect to criminals by running into them in the right place, saying the right things.

It's the 1990s now:

Only, as we have seen, informants connecting to criminals means the FBI targeting Randy Weaver WHO HAD NO CRIMINAL RECORD for blackmail. Anyone can be made a criminal in the monitoring net. Or seduced into a "crime", like Qubilah Shabazz. Without you realizing it, the person you met was taking advantage of knowing all your most passionate likes and dislikes.

It is INSANE to design our systems for government monitoring.
